## NOW IS THE TIME TO BUY YOUR Bedroom Furniture

Owing to the increasing demand for steel for war purposes, steel beds and springs are going to be hard to get at any price. The same is true in regard to felt mattresses. It is very probable that the U.S.A. will place an embargo on the exportation of both cotton and steel, in which case your beds will cost you very much more.

We ask you to compare our prices with any others—we know you cannot get the same quality of goods at any lower prices.

**Steel Beds**, any size, fitted with brass caps, 1 1-16 inch posts. Price ..... **\$6.75**

**Steel Bed**, with upright fillers, brass knobs, 1 1-16 inch posts. Price ..... **\$10.75**

**Steel Bed**, in a beautiful Vernis Martin finish, 1 1-16 inch continuous posts. Price ..... **\$13.75**

**Steel Bed**, in the same finish and design but with 2 inch posts. Price ..... **\$22.50**

These last two beds have the appearance of brass with the strength and rigidity of steel.

**All-Steel Springs**; Link Fabric, guaranteed not to sag. Price ..... **\$6.75**

**Steel Coil Springs**; made with 108 steel coils, guaranteed for 10 years. Price ..... **\$10.75**

**Combination Mattresses**, are filled with selected wood fibre with layers of felt top and bottom. **\$7.50**

**Combination Mattress**, with roll edges. Price..... **\$8.75**

**All-Felt Mattress**, made of clean sanitary felt with roll edge, in 4 ft. size only. Price ..... **\$13.50**

**All-Felt Mattress**, in 4 ft. 6 in. size. Price ..... **\$14.50**

**All-Felt Mattress**; superior quality white felt, **\$21.00**

**Extension Couches**, make a couch by day and a bed by night; covered with a strong durable cretonne covering. Price ..... **\$22.00**

WEDNESDAY, SEPTEMBER 18, 1918

"The Albertan (Calgary) cannot understand why the government was not content to permit a man with the principles and ideas and unquestioned ability of Mr. Carswell to go unopposed. It could rest assured that he would support progressive legislation, and that when he opposed any measure that it would be well to give it further consideration."

WHEN WILL THE ELECTION TAKE PLACE

The contest in Red Deer riding for the local legislature cannot be much longer delayed. No doubt an election will be held by November, as it will be necessary to have the members elected in time for the next meeting of the Legislature early in the new year. So far not a word has been given out as to the probable date. We are aware a still hunt is going on to make the machine candidate secure his seat. Cream buyers are scouring the west country, especially among the Finlanders, and it looks as though a big price will be paid for this much desired product before the election is over. The electors are pretty well acquainted with the issue at stake between the two men who have been nominated and it is only necessary for the government to make the date of the election, when the fight will be on in earnest. On the one hand the machine politician has been nominated to do everything the machine wants him to do, on the other hand an Independent Liberal has been nominated to oppose him with everything that goes with clean politics to back him up. The general idea is that machine politics should be ousted, and we feel that F. W. Galbraith will head the polls whenever the electors have an opportunity to vote, whether the time be long or short.

NOTICE TO UNITED STATES CITIZENS.

We draw attention to a notice published in another part of this paper by the Department of Justice to United States citizens in Canada. It should be read by all American citizens, as it applies to the United States Military Service Convention regulations.

### PROPHECY AND THE JEWS.

A short time ago a Jewish Rabbi in Calgary made the statement that the relief of Jerusalem by the British forces was almost to the day according to prophecy. He also contended that Great Britain was really the tribe and that all Jews would do well to assist them in wresting the Holy Land from the hands of the infidel Turk.

There are many people, who are in sympathy with Germany and Austria, who would do well to ponder well this statement of the Jewish Rabbi, lest they find that they have been entrapped by a cause that is against the will of the Almighty, because the Germans have been using every effort with the Turks to prevent prophecy being fulfilled, without avail.

Life for the busy farmer has just been one stock after another for the past month.

Hon. A. G. Mackay was elected by acclamation in Athabasca riding last week, there being a feeling that he should be given his seat without opposition. The election was necessary owing to Mr. Mackay's election to the cabinet in the Stewart government.

### AMERICANS NEAR METZ

FRENCH CAPTURE MORE TOWNS BETWEEN OISE AND THE AISNE; BRITISH MAKE ADVANCE

London, Sept. 15.—The British have captured Maissieux, northwest of St. Quentin, together with the French system to the southeast and east of that place. Field Marshal Haig makes this announcement in his much desired product before the election is over.

Paris, Sept. 15.—"South of the Oise," says the war office announcement tonight, "we maintained our positions against violent counterattacks. We captured the plateau east of Vauxhall and the crest northeast of Colles-sur-Aisne. The prisoners taken by us since yesterday morning exceed 5,000."

Paris, Sept. 14.—The prisoners taken by the Americans in the St. Mihiel operations number nearly 20,000, according to Marché, Hittin editor of the Echo de Paris, among them being 5,320 Austrians.

American headquarters in France, Sept. 14.—When the St. Mihiel operation began there were from 50,000 to 100,000 Germans inside the salient. They escaped at the rate of 1,000 hourly, but the place was closed and trapped a hitherto unknown number. The 13,000 already taken prisoners does not include the bulk of those who have been trapped in the salient. An entire German regiment with its commander and all the staff were captured.

London, Sept. 15.—General Pershing's army, according to this afternoon's news, is making fine progress. Since yesterday afternoon it has advanced from two to three miles on a thirty-three mile front, and the forces guns of Metz have come into action against it.

### CITY COUNCIL MEET

The regular meeting of the City Council was held on Thursday evening last with Mayor G. W. Smith in the chair, and Aldermen Galbraith, Lord, Stone and Collison in attendance.

**CORRESPONDENCE.**  
The Monday Times wrote urging upon the Council the advisability of inserting an advertisement in the Annual of that publication.

H. F. Kenny made application to the Council for the privilege of establishing a stock yard for his own use near the C.P.R. stock yards.

Moved by Ald. Collison and Stone that the Council should not interfere with the establishing of the stock yards by H. F. Kenny as set forth in his letter of August 22nd, 1918, providing the location does not interfere with the Public Health regulations of the City Council.

The secretary of the Union of Alberta Municipalities, Canmore, wrote stating that the date of the annual meeting of the Union is announced for October 9 and 10, and asked that the Council select delegates to attend said meeting.

Hugo Bros, travelling show, desired to know the license to be charged them in the event of visiting Red Deer.

The Council left this matter with the Commissioners, as they did not know the administrator for the Rink site. This has been handed to Payne & Graham to be registered.

**COMMISSIONERS' REPORT.**  
The Council City of Red Deer, Gentlemen.—We submit our regular report as follows:

We have received from the C. & E. Townsite Co. transfer to the Rink site. This has been handed to Payne & Graham to be registered.

The rattle on the east side of the approach to the traffic bridge over the river is in bad shape and we have instructed Foreman Jones to make whatever repairs are necessary.

1st Street N.E. between the Rink and 1st Ave. E. and 5th St. in Parkvale have been graded. 2nd and 4th Sts. in Parkvale should also be graded but we would recommend that this be left until Spring. We purpose, with your approval to have manure and ashes dumped during the winter on the west side of 3rd Ave. E. (Parkvale Ave.) from 1st St. to 5th St. to widen this road about 12 feet. In Spring 2nd and 4th Sts. may be graded and the surplus earth used to cover the dump on 3rd Ave. E. This will make a good road to the Exhibition grounds at little expense.

Some weeks ago an alarm was turned in for a fire in a house in West Park. While fighting this fire Wm. Russell, who is employed by the City during the summer, had his arm badly cut and was laid up for about three weeks. We would ask if he should be made any allowance for the time off duty. Some years ago the City limits were extended to the fire hose outlet. The City limits were discussed and the matter was left to the fire chief to decide in each case. It is always possible that one day the fireman of some of the houses or apartments might be injured while attending one of these fires, in which case the City might be liable for heavy damages. We get no refund of the cost of these alarms. It might be possible to have the Village or North ward pay for the L.I. District agreed to indemnify the City for the cost of alarms sent in from their limits, without obligating the City brigade to attend every alarm sent in. If this cannot be done it might be well to instruct the brigade not to go outside the limits except under extraordinary circumstances.

The beaver dams in Waskasoo park have been repeatedly destroyed, but the beaver always build them up again and they have again commenced to cut down trees.

The proceeds of the sale of Treasury bills has been received, and the 1917 note of the Imperial Bank paid off. We recommend that the money due L. J. Carswell be paid him immediately as funds are available for that purpose now.

Two cases of typhoid fever have been reported the past few days. We are having samples of water analyzed and investigations made to try to discover the causes.

We submit statement of receipts and disbursements for August.

We submit departmental reports for August.

We submit accounts for your authorization to pay.

All of which is respectfully submitted.

G. W. SMITH,  
A. T. STEPHENSON,  
Commissioners.

Moved by Ald. Galbraith and Lord that the Commissioners be requested to approach the Rural Municipal Council of Pine Lake to obtain some arrangement as to payment for response to the City Brigade to fires in Red Deer West and West Park, and that the claim of Wm. Russell for compensation we believe is fair, and that the Commission be requested from the Rural Municipal Council by the Commissioners.

Departmental reports of the M.H.O., the Fire Chief, the Chief of Police and Foreman of Public Works, were read and filed.

**ACCOUNT.**

### SOME WAREHOUSES ARE HOARDING BUTTER

WHOLE TRADE NOT INVOLVED BUT SOME HOLDING MORE THAN LAW ALLOWS.

Ottawa, Sept. 14.—The cost of living branch of the department of labor has furnished to the Hon. W. V. Crowther, minister of labor, a report concerning goods in cold storage throughout the Dominion. The fact that certain cold storage firms are hoarding butter, is emphasized by the report, which is, in part, as follows: "The quantity of butter in storage is excessive. It is not true that the whole trade is involved in this hoarding, but certain members of the trade are holding larger amounts than is right, and the law allows."

"The stocks of butter are not as large as last month, but a large proportion of it is completely cured and available for immediate shipment."

**CHEESE STOCK DECREASES**  
"The amount of cheese in storage at the first of the month is less than a month ago, and very much less than a year ago."

"There is very little change in the amount of eggs in storage. It is not yet the time of year to move eggs from storage and apparently very few were put in during August."

"The stocks of oleomargarine have declined. This will be a source of gratification to all concerned."

"The total stocks of pork are about the same as last month, but a large proportion of it is completely cured and available for immediate shipment."

**BEEF STOCKS INCREASE.**

"The stocks of beef have increased. This fact agrees with other evidence that no new high records of prices should occur in the near future."

"Evidently the stocks of mutton and lamb on hand a month ago have been sold for consumption as we suggested. The stocks have declined very decidedly."

**FISH SUPPLY GREATER.**

"The stocks of fish are greater than a month ago and much greater than a year ago. The only gratifying thing in this is that the submarine opening of the Atlantic coast apparently have not stopped the catching of fish. We would suggest to the fish dealers that they give greater encouragement to the consumption of fish by selling at more alluring prices than those ruling today in the fish markets."

Statement comparing holdings on September 1, 1918, with September 1, 1917, taken from such limited lists of firms as the records of last year allow:

The south side of the salient lies east and west with a length of twenty-five miles from the Meuse to the Meuse. Its northwest angle was a few miles from Verdun and near the Meuse. The removal of this standing threat to Verdun, this perpetual menace to the heart of France that had stood unshaken for four long years, almost under the guns of the great fortress of Metz, is an event whose significance can scarcely be overrated.

Whether considered as a relief to the French situation, a proof of the fighting ability of the American forces, or an evidence that Germany is at last feeling the strain of war, as she has hitherto given no evidence of doing. In every way it is a famous victory and may very well open the way for an Allied offensive on German soil.

At Pagny the American are on the German border.

**FRENCH MAKE FURTHER PROGRESS.**

Paris, Sept. 13.—The French have made further progress between Savy and the St. Quentin-Ham road, and also to the north of Nanteuil-la-Forêt in the Rheims sector, according to the official statement issued by the war office tonight.

Two German counter-offensives were repulsed in the region of Laifaux and Moisy.

**BRITISH GAIN MORE GROUND**

London, Sept. 12.—Northwest of St. Quentin, the British have gained additional ground around Varmand and Jeancourt and in the region of La Basse have made further progress.

According to the official communication issued tonight. In the latter region, territory giving the British a wide range over the outlying districts has been reached.

London, Sept. 13.—Haig's report this evening is as follows: "The French have taken possession of the Jeancourt sector, northeast of St. Quentin, our troops have gained ground in contact with the enemy advanced detachments and have taken prisoners."

"Southwest of La Basse our progress has continued in spite of the opposition from hostile machine guns. Our troops have taken possession of Pommerehne and of the slag heap adjoining it. The slag heap, known as 'the dump,' forms the feature, giving wide observation over the surrounding country."

"To the north of it our troops hold the German trench immediately west of Aubrey-La Basse, and a series of saps forward into the village. We captured a few prisoners during the night in the region of Zillbeke lake."

### BRITISH CREDITS SPENT IN CANADA RESTORE BALANCE

Washington, Sept. 13.—About \$400,000,000 of U.S. funds loaned to Great Britain was spent in Canada for wheat, munitions, and has contributed materially to improving the situation which was an adverse to Canada's business interests. This became known here today in connection with the treasury reports that exports from the United States to Canada in 1917 were \$719,000,000 and imports from Canada \$434,000,000, leaving about \$285,000,000 balance against Canada, in addition to interest and maturities on Canadian obligations in this country.

This balance was more than offset, however, by the use of British credits officials stated. Sixty-five millions was arranged privately in New York by Canada within the year, under approval of the American government. The war and navy departments have placed large orders in Canada, contracts now outstanding being reported at about \$125,000,000. A substantial part of exports to Canada represented munitions or materials later re-exported to the United States or Great Britain and financial almost entirely by American credits to Great Britain.

The German closed in and a forty-minute battle followed, in which the American skipper, maneuvering his vessel so as to bring his six-inch stern gun to bear on the U-boat, finally scored the direct hit which finished the enemy. Bodies of the U-boat's crew were seen, according to those on the tanker.

New York, Sept. 10.—The claim that their gun crew sank a German submarine of large type 400 miles off Sandy Hook on Sunday morning was made by the captain and crew of an American oil tanker, which arrived here on Tuesday morning. The U-boat, according to the marines, was blown to pieces by a shell which landed squarely on its hull. The U-boat at first mistaken in the half-light of early morning for another tanker, was sighted by the ship's lookout, it was related. A moment later, however, its real identity was disclosed, and the tanker, going to the attack at full speed, opened up on the German with 4.7 inch shells.

## This store is continually making changes for the benefit and the greater convenience of its customers.

We have just finished alterations on the Second Floor, making very much improved arrangements for the Millinery, Ready-to-wear, and the Linoleums and Floor Covers, and we have rounded out our Hardware Department by installation of a Tinsmith and Heating Department capable of taking care of any work.

We have been careful in keeping our prices below the ruling prices, and the Canadian Food Board has not made a price-ruling which has required us to reduce a price.

We have considered the "cash and carry" plan compared with the expense of our delivery system, and after reorganizing our delivery system cutting it in half without impairing the service, we find that serving fourteen departments and two sub-sections the expense to each is very small.

We have also made a close study of the "self-serving system" in the most progressive American cities where competition is the keenest, and found we can handle our department more economically and more satisfactorily under our present system. We mention this in passing because we have been pressed to open such a department and we want our customers to know "we are not asleep at the switch." We are fully informed how to conduct such a department but as an "advertising novelty" we do not propose adopting it.

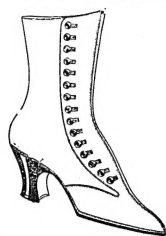

We are adhering strictly to the "CASH SYSTEM," now completing our eighth year, which has been proven the best policy for everyone.

Our Fall stocks are well to hand and by comparison with advertised and catalogue prices we find ourselves in the strongest position we have ever occupied. It may be poor business to keep our prices below the cost of replacement of the same goods but it has always been our policy to give our customers as far as a possible the benefit of our advance buying and the benefit derived from buying for "cash" and selling for "cash."

## Distinctive New Fall Millinery

The beauty in Color, Line and Fabric of the new Fall Hats is admired by everyone who visits our show room.

Small, snug hats are favored, some with artfully draped veils, effective in color harmonies.

This is the season which requires the designer to be an artist to produce the shape and effect of the clever and irregular lines which as so popular, with accompanying materials and correct finishing touch.

Crowns are higher, but not bulky, rather of the crush effect which makes them very becoming and wearable.

Taupe and Henna Brown, a shade midway between Fawn and Terra Cotta, blend agreeably with all the shades of Castor, Browns, and Beavers; Burgundy is not unpopular, and Black lends itself to the completion of rich costumes and is always correct.

## Silk Lustre Underskirts

We have just received a new shipment of American made underskirts and we know you will be delighted when you see them. Made from fine quality silk lustre in all the new designs, in bright and dark shades, have shirred elastic waistband and pin tucks, with accordin pleated frills, colors are in plain black, navy and grey, and in novelty designs in shot effect. # Immortal Fame Won For Canada By Her Boys In Great Defeat of Huns

In One Month, Incomparable Soldiers of Dominion Add Two Important Chapters to History of World.

## CAPTURES OF GUNS ONE-SEVENTH OF TOTAL OF ALLIES THIS YEAR

With the Canadian Forces, Sept. 8. It is a month today since the Canadian corps went into action before Amiens. In that battle and in the more recent battle of Arras it has added two important chapters to the history of the world and to the deeds that redound to the honor of Canada.

In that brief span its captures of guns have been one-seventh of the total guns captured by all the allied nations this year. It is possible now to life the veil a little and give a connected account of these operations.

### PRACTICED OPEN WARFARE

During the period July 1 to July 10 to Canadian corps was concentrated in the Monchy-Breton-Lignereuil-Cauroy-Dieval-Auchel-Chateau de la Talle area and here it was practised open warfare. For the previous two months they had been constantly practising open warfare. On July 10 the corps was released from the reserve and relieved a corps in the line from Telegraph Hill south.

This line was held by three divisions; and our second division, which had been attached up to that time to another corps, thus losing the benefit of the period of training, was taken out put into reserve to go through the same course. The general plan adopted during this period of holding the line was to foster in the mind of the enemy the idea of a pending attack in order to retain or draw his reserves into this area, and consequently an aggressive policy was adopted.

Active patrolling was carried out by day and night and raids were constantly effected. The artillery carried out a vigorous program of harassing and counter battery work. From prisoners it was learned that the enemy expected an attack and that the troops had been frequently rushed forward to defend the front. Count-Queant line.

### MOVE TO ANOTHER FRONT

On July 30 the corps was transferred to the fourth army and orders were received to move to another front. The time between July 30 and Aug. 8 was given up to moving the corps to the new area extending from Villers-Bretonneux, in the north, to the woods of Goksil Gentelles, in the south. How the move was executed and with what success can best be indicated by the fact that no member of the corps knew where he was going, and the success of the attack was demonstrated by the fact that the enemy was completely taken by surprise on the night of Aug. 7-8. Therefore the Canadian corps was concentrated in the woods of Goksil Gentelles, in the north, and all available cover in front of Amiens and immediately behind the front line extending from Domart, through Haingard, to the village of Cachy. At twenty minutes past four on the morning of Aug. 8 the corps attacked with three divisions, the second division being on the north, the first in the centre and the third in the south.

The corps was extended between the Amiens-Chaumont railway and the Amiens and Roye road. On the left flank of the Canadians were the Australians and on the right flank the French. All the troops attacked at the same time.

### MAKE REMARKABLE ADVANCE

During the first day the Canadians advanced about 20,000 yards, a world's record, capturing the villages of Domart, Hougues, Hangard, Abbe-court, Couelles, Demulin, Ignacourt, Marcelave (whose capture has been erroneously attributed to the Australians), Beaumont, Cayeux, Wincourt, Lequesnel, Gillcourt, Beaufort and Folles.

On the second day a further advance was made through stiff fighting, when the fourth Canadian division was thrust into the fray to relieve the second. On this day the villages of Bouchor, Warville, Rosieres, Maucourt, Mahorcourt and Chilly were captured.

On the third day the corps was reinforced by a British division and the attack was proceeded with. The villages of Quessoy and Pouscourt fell on this day. The fighting was intense since the enemy had been driven back to the system of trenches easy of defense and was making the most of it.

### BITTEREST CONTEST

The next few days saw probably the bitterest contest of the battle. From the capture of Parville, Darny, Halluch, all of which together with Fresnoy, Guencyourt, Chavette and Fresnoy were ultimately taken the time up to Aug. 19 was taken up in consolidating for defence the positions won, and on that date the corps handed its line over to the French and proceeded to move north. This ended the battle Amiens, then probably the most noteworthy achievement of the Canadian corps, if not of the war.

### OVER GREAT AREA

The following facts best illustrate the magnitude and importance of the operations. The area captured approx-

imately 60 square miles. The average depth of penetration into enemy territory was 12 1/2 miles. Villages captured numbered 27. During this battle we engaged 16 enemy divisions, of which nine were fully engaged, four partly engaged and three others identified.

We took 9,131 prisoners of all ranks 190 guns and howitzers, 1,040 machine guns and trench mortars, nine railway steam engines and five pigeon lofts, besides countless booty in the shape of equipment and vast stores of ammunition.

### COMPLETE, GENERAL, AND PERMANENT

That the sale of gasoline on Sunday is unnecessary we have all along contended, some in authority and many others holding. The contrary, in a conference with those in the business in many places and in particular in recent correspondence with those of the United States, has been a confirmation of our view. Now support is coming from unexpected quarters. A leading paper says it is no more necessary to have a Sunday law on Sunday. Quite a number of dealers in various parts have combined to discontinue Sunday sales. The example of the United States in requesting that gasoline be not used on Sunday by motorists that a vital supply may be conserved in having its effect on Canada. Motorist associations here are calling upon their members to eliminate Sunday use of motor cars. Garage owners are acting independently and in concert to stop Sunday sale and repair work with a view to conservation.

"Well don't we say in the interest of 'yes' but more emphatically in the interest of men. Why, before the war, or since, apart from the example of the United States, people would not see that the form of Sunday trade was unnecessary and deprived hundreds of employees of Sunday rest seems incomprehensible to us. Now that the light has dawned, let there be no halfway measures. Stop Sunday sales completely, except in case of emergency, everywhere, and permanently."

The Executive of the United States has a motor car on Sunday is being effectively discouraged by the application to offenders of the spirit of the law. "Give your Sunday pleasure" say they, and win the war. The Lord's Day Alliance uses no epithets, but urges, "Cease Sunday sales and sell to save lives and help our men, and if we have less Sunday motoring so much the better for the relief to all classes of a quiet Sunday."

The Lord's Day Alliance furnishes large cards reading, "Buy your gasoline Saturday" to all dealers upon application.

The situation on the night of Sept. 7 was generally satisfactory. The line due north and south between Hendecourt and Eterpigny had been reached and decided upon as a jumping off line. In addition to those on the first day, the following villages had been captured: Vis-en-Artois, Boiry, Cherisy, Hangard, Pelvies, Rem, Haucourt and Eterpigny.

At 5 o'clock on the morning of Monday, Sept. 2, the formidable task of piercing the great switch line was undertaken. The disposition of troops was as follows: From north of Hendecourt to Eterpigny, from right to left, First Canadian Division, Fourth Canadian Division (and a British division in support was not called upon). On the south of the Canadians were the 17th corps.

### ATTACK SUCCESSFUL

The attack was entirely successful and the great Quent-Droicourt line was pierced as agreed. On the first day the corps advanced 400 yards in the face of a withering machine gun fire and captured the village of Dury. Villers and the surrounding area were captured on Sept. 3, 4, 5, and was the hardest the corps had yet experienced. By Sept. 5 the enemy was forced to the east bank of the canal du Nord, while the Canadians occupied the west bank. The second great victory of the corps within the first five days of the fighting was achieved on Sept. 5, and that great fighting formation had made a name that must forever live in the annals of history. From a strategic standpoint this second great achievement was even more important than the first. The following is a brief summary of its details:

### DETAILS OF CAPTURE

Eighty-nine heavy field guns, two 10 inch naval guns, six auto trucks, 1,016 machine guns, 73 trench mortars, two searchlights, and one hell quantities of ammunition and engineering supplies, as well as a vast amount of hospital supplies. Ten thousand three hundred and sixty prisoners of all ranks were captured and 22 villages.

Great victories are now to be won without heavy price and our casualties, though severe, were not extraordinary, considering the objectives gained in both battles. Altogether their number did not greatly exceed the total number of prisoners captured by the corps. Primarily, these brilliant victories are the work of the incomparable Canadian infantry.

### TRIBUTE TO ALL ARMS

The Canadian force of motor machine guns, the tank brigades and other formations, such as the intelligence department, engineers, railway corps, transport and other services.

## NOTHING BUT HEART FAILURE CAN NOW PREVENT REAL VICTORY

### PREMIER LLOYD GEORGE DISCUSSES WAR ISSUES.

Manchester, Eng., Sept. 12.—"Nothing but heart failure on the part of the British nation can prevent our achieving a real victory," said Premier Lloyd George, speaking today at Manchester.

The premier said that the British casualties in the last offensive in France were one-fifth of what they were in 1916.

Premier Lloyd George said he was all for a league of nations and that in fact a league has already begun. The British Empire, he said, was a league of free nations and that the Allied countries fighting the battle for international right were now a league of nations.

"To end all wars," the premier said, we must secure a durable peace from our enemies. The Prussian military power must not only be beaten, but Germany herself must know and the German people must know that their rulers have outraged the laws of humanity and the laws of nations. Strength cannot protect them from punishment.

"This must be the last war," said the premier. "But do not let us be misled that the establishment of a league of nations without power will, within itself, secure the world against a catastrophe. A league of nations with the Prussian military power triumphant would be a league of fox and goose—one fox and many geese. The geese would greatly diminish in numbers."

The only safe foundation for a league of nations, the premier said, was a victory for the Allies. Peace must be of a kind, he added, that commands itself to the common sense and conscience of the nations. As a whole it must not be dictated by extraneous considerations.

"We shall neither accept for ourselves nor impose on our foes a 'Brest-Litovsk treaty.'" "We cannot allow the Bolsheviks to force on us a peace so humiliating as to dishonor the national flag and to make a repetition of the horrors of this war inevitable. When a satisfactory peace has been secured, we can proceed with a clear conscience to build up a new world."

## LOCAL COUNCIL OF WOMEN

The Executive of the Red Deer Local Council met on Tuesday evening at Mrs. Galbraith's. There were present, Madam Maxwell, Creelman, Family, Carlsen, Geo. Simpson, Greig, McMillan and Galbraith.

A committee was appointed to arrange to send a delegate to the meeting of the Provincial Executive Committee of the National Council in Calgary in October.

As a large number of Food Pledge Cards had already been distributed by the Institute and the L.O.B.E. it was decided that a house-to-house canvass was not necessary for the present.

It was decided to send Christmas boxes to our soldiers, sailors and nurses overseas, and to this end to hold a tag day on Saturday, October 1. Committees were appointed to look after the tag day, and the buying, packing, advertising, etc.

The Local Council of Women are going to send Christmas boxes to our soldiers, sailors and nurses overseas. Persons having addresses of such, please send them to Mr. S. Fumby, Box 64, or at Ross and Hammond's Garage. Neighboring districts wishing to join in the work in the work, please send addresses and contributions to the same address.

### KEMP AND SIFTON BACK IN CANADA

An Atlantic port, Sept. 10.—Carrying 100 passengers, of whom 700 were women and children, a British liner arrived at this port today. Among the prominent Canadians on board were Sir Edward Kemp, former minister of militia; Sir Clifford Sifton, and Bishop Fallon, of London, Ont., who has been in the fighting for months with the Canadian corps on Fallon witnessed the advance of August 8, 9, and 10, and said no words could describe the great work done by the gallant Canadians. He said the men were hopeful of complete victory by next year.

### GOD'S SMILE.

God's smile may be a frowner, or a bit of bright color. God's smile may be an expression on some stranger's face or a cheer on your own face. God's smile may be a little bright incident that changes the day for you—or a larger or more potent something that changes your life.

"Never doubt, no matter how full of sorrow and suffering and war the world may seem, that God does smile! Just look at the face of a crowd of little children, just listen to a choir singing, just walk at dusk into a dewy garden—and you'll know!"

### MENNONITES ARE SUBJECT TO SLACKER TREATY

Lethbridge, Alta. Sept. 12.—A special dispatch to the Lethbridge Herald today from Ottawa gives it on the authority of Hon. J. A. Calder, that Mennonites coming into Canada from the United States who were subject to military service in that country, are also subject to service here under the terms of the recent "slacker" treaty between the two countries.

The choir, which now numbers twenty, will render the anthem, "Let not your Hearts be troubled." Foster, and it is expected that the male quartette will also contribute a number.

Mr. A. H. Trimble and Mr. B. Trimble have sold out their 100 acres in Clearview to a Saskatchewan farmer. The price was over the \$50. The loss of the successful pioneers is regretted. Mr. A. H. Trimble will probably spend the winter with his son in Florida, while Mr. and Mrs. B. Trimble will go to the coast—for a time at least. Miss Gladys Trimble and Miss Edith McKinnon will continue their agricultural courses at the University of Alberta.

The many friends of John R. Cowell, clerk of the Legislature, will be pleased to learn that he is back at his office again, after a long and serious illness at the coast. In the latter part of April Mr. Cowell left Edmonton on leave of absence for his health, and when only a few days from home developed an attack of blood poisoning which proved of such an acute character as nearly to cost him his life. His four months of illness were spent in California, where the first symptoms became evident, and Victoria, and on his way home he spent the past four weeks in the Okanagan. As a result of medical treatment, in which use was made of a new antiseptic being used in various zone hospitals, a cure which has been pronounced remarkable has now been effected, and Mr. Cowell has returned almost entirely restored to health.

A special effort is being made by the Social Service League to raise money for Child Welfare work. A tag day for this purpose is being held throughout Alberta on Saturday Sept. 21st. Although the campaign in Red Deer is under the direction of the W.C.T.U., it is a work in which every worthy organization is interested, and it is hoped that every one who can, will help in this work. Mrs. Houston and Mrs. F. W. Gasts, the committee in charge of the work will be pleased to take the names of any who will volunteer their services for this work.

DEBS IS GIVEN 10 YEARS IN PEN. ON THREE COUNTS.

Cleveland, O., Sept. 14.—Eugene V. Debs was sentenced to serve 10 years in the West Virginia penitentiary on each of three counts of the indictment by Federal Judge D. C. Westover here today. The sentences will run concurrently.

Motion for a new trial was overruled and an exception on behalf of the defendant was allowed. A motion for arrest of the sentence was also overruled.

RUB IT IN FOR LAME BACK.

A brisk rubbing with Prof. Parker's Boreka Rubbing Oil will cure lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the oil sinks in the pain comes out and there are ample grounds for saying that its touch is magical, as it is—Prof. Parker, 56, Second Street, South.

## GALWAY CASTLE SUNK

189 ARE MISSING

VICTIMS INCLUDED 120 OF THE PASSENGERS—93 WOMEN AND CHILDREN

London, Sept. 15.—The British steamer Galway Castle, 7,988 tons, has been torpedoed and sunk. She had 969 persons on board, of whom more than 850 were saved.

120 PASSENGERS MISSING.

London, Sept. 15.—One hundred and twenty passengers from the torpedoed steamer Galway Castle are missing, the Press Association reports today.

London, Sept. 15.—The missing from the torpedoed Galway Castle number 189. They include 120 passengers, 36 naval and military officers and men, and 23 of the crew.

Ninety-three passengers lost were without exception women and children.

The liner floated for two days in charge of the captain and volunteers.

The Galway Castle left port for South Africa on Tuesday last and was torpedoed on Thursday in a stormy sea.

LIFEBOAT SMASHED.

The Central News account of the sinking, says that one of the lifeboats was driven by a stormy sea against the ship's propeller and smashed. One of the steamer's passengers, the account adds, was Mary Burton, minister of railways of the union of South Africa, who was saved, and Major Babington, a member of the South African parliament, who is missing.

The Galway Castle was built at Belfast in 1911. London was her port of register. She was owned by the Union Castle Mail Steamship company.
